

NEW!

Cisco CCNA Curriculum – Exploration

South Suburban College and Cisco are pleased to announce the next generation of the Cisco CCNA curriculum.

Kick your IT career and certifications into high gear!

Get the New Cisco CCNA Exploration certification at South Suburban College this Fall 2008.

The Networking Academy program uses a combination of face-to-face training with online curricula, hands-on lab exercises, realistic network simulations, and an Internet-based assessment tool to deliver the best program ever. By using our innovative networking technology and communications expertise to deliver IT education, we can help you improve communities around the world and provide you with the skills needed to succeed.

CCNA Exploration offers in-depth theory, challenging labs and detailed lessons. The course prepares students to be successful IT professionals in small-to-medium businesses as well as enterprise and service-provider environments.

Advantages of the new CCNA Curricula

- Increased use of rich media for ongoing interactivity throughout the learning process
- Optimal balance of theory, practice and application
- Alignment of learning objectives with job skills
- Enhanced and embedded network simulation tool for e-doing, which provides guidance and opportunities for exploration and experimentation. Our new e-doing will enable you to complete interactive activities that stimulate learning and improve knowledge retention.
- High and low bandwidth class online class delivery

Then CCNA Exploration curriculum is composed of four courses 8 weeks each:

1. Network Fundamentals
2. Routing Protocols and Concepts
3. LAN Switching and Wireless
4. Accessing the WAN

Get on the fast track with your career – each course is only 8 weeks! Register Now!
